Pony-Aspirolava

Naši ekstrakcijski uređaji su višenamjenska oprema koja vam, zahvaljujući njihovom ekstrakcijskom dijelu, pomaže kod brzog i efikasnog pranja gotovo svakog tipa površina: tepiha, tepihona, tapeciranog namještaja, zavjesa, podova (mramor, guma i sl.), zidova i auto sjedala. Pumpa u ekstrakcijskom dijelu na modelima Pony 700, Pony 800, Pony 900 i Pony 900 Compact, proizvedena je u pogonima IPC Soteco. Svi ovi uređaji mogu se koristiti i kao normalni suho-mokri usisavači.

Our extractors are multivalent equipments which, thanks to their injection-extraction system, help you to wash quickly every kind of surface: moquettes, carpets, arm-chairs, curtains, floors (marble, rubber, etc.), walls and car seats. The pump of models Pony 700, Pony 800, Pony 900 and Pony 900 Compact is manufactured by IPC Soteco. All these machines may be used even as normal wet and dry vacuum cleaners.
